

# *Form Drawing*

## *The Art of the Moving Line*

*“Form Drawing is the imprint of line born from movement of the human hand. “*

Join me and explore the art of the moving line. Share in an 'adult' experience of form drawing that will inspire and fuel a relationship to balance, spatial orientation and a discovery of resting within movement. I'll tailor our time together for teachers needing to reconnect with bringing forms alive in the classroom, for parents curious about form drawing or simply anyone seeking an artistic experience that is endless in life metaphors.
